

As part of HACIA's continual effort to provide educational scholarships within our industry, we ask you for your support in recognizing the importance of encouraging young people to enter into construction related studies. Hispanic students entering engineering, architecture and construction related careers would create a long term positive effect in our industry. Your sponsorship not only will encourage young students to pursue construction related studies, but provide motivation to those already in the field. Additionally, an architectural scholarship will also be awarded in memory of Alphonse G. Guajardo to students seeking their Master of Architecture from the University of Illinois at Chicago.
